

# 萬佛聖城慶祝觀音菩薩聖誕法會暨觀音七

2019年3月24日-3月30日

如春天的草木，一天比一天長大，但看不見它每天長多少，智慧亦復如是。一旦存正念，邪念減少了，智慧便一天一天增長。你看得見嗎？看不見的，因為智慧是神聖不可知。你有智慧，沒有智慧，你自己能感覺得到。假如你不像從前那麼糊塗顛倒，專做不應做的事，你就有智慧；你若還是那麼糊塗顛倒，專做不應做的事，就是愚癡。

Consider the grass in springtime. We may not notice its growth, yet it gets taller and taller every day. Wisdom develops the same way. Once we have proper mindfulness and lessen our unwholesome thoughts, our wisdom will grow. Can wisdom be seen? No, it can't be seen because wisdom is a very sacred and spiritual thing. But whether someone has wisdom can still be detected. As long as we continue doing foolish things, then we still lack wisdom. If we can refrain from our former foolish and upside-down ways, then we can be said to have acquired some wisdom.
