

問：如何令世界沒有末日？

Question: How can we avoid the end of the world?

宣公上人：如果佛法翻譯成英文及各種不同的語言，人人知道不懶惰，人人向前去發心修道，那麼這個世界末日還很遠很遠，不知道多少個大劫之後，或根本沒有末日。為什麼呢？因為佛法轉大法輪，把太陽都給吸住了，太陽都落不下去了，所以沒有末日了。

Venerable Master Hua: It would be possible if the Buddhadharma could be translated into English and other languages. Everyone knows not to be lazy. Everyone knows to make the resolve to cultivate diligently. If everyone does this, then this world will not meet its end. We don't know how many kalpas it will take or whether it will even happen at all. Why is that? It is because the Buddhadharma turns the Dharma Wheel, which attracts the sun, so that the sun cannot collapse, and thus, there will be no end of the world.
